RETAIL PRICE LIST

HOPEDALE NURSERIES

J. W. GRIESEMER, Prop.

Hopedale, Illinois

Fruits, Shrubs
and Flowers

Shade Trees
and Evergreens

There is not much change in prices on nursery stock. We are glad to be able to reduce the price on some important items, altho the reduction is small. Barberry and Hydrangea are still coming down in price. We expect them to be back to normal soon. Cut Leaf Weeping Birch and Schwedlerii Maple, two popular items, are still so scarce that it is almost impossible to secure them at any price.

OUR DESCRIPTIVE CATALOGUE

We still use our old Descriptive Catalogue. It contains 48 pages and covers; honest descriptions and valuable information. If you have misplaced your copy and want another, we would be glad to send it. It contains but few prices, but they are no longer valid.

REFERENCES—Hopedale National Bank; either Bradstreet's or Dunn's Commercial Agency of Peoria, or any business house in Hopedale.

TERMS—Cash or satisfactory reference from unknown customers. Those with established credit, 10 days date of purchase, or bill. Where credit is extended and not paid when due, we charge 6 per cent interest from date of purchase.

Six of a sort and grade at 10 rates, 50 at 100 rates and 500 at 1000 rates.

Stock packed and delivered to carriers at these prices, except as noted. Purchaser pays carriage charges, either Freight, Express or Parcel Post. If you send too much money for postage, it will be returned.

GUARANTEE—We guarantee every tree and plant that leaves our premises to be of the sort sold, in good, vital condition. **WE DO NOT GUARANTEE THEM TO GROW.** Too many things may happen to them after leaving our hands. Does any one guarantee a horse, cow or hog to grow for one year after selling it? One is as fair as the other. If the grade, count or vitality of the stock is wrong, please advise **on receipt of same**, that it may be adjusted. We will return purchase money, or send other plants, or give you guarantee of its growth and so adjust it in either way you may choose.

If on bearing, any items prove untrue to name, we will furnish the right sort, or return the purchase money, as you elect, but will not be responsible to any greater extent. We exercise all care to have only good plants sent out, and the variety true, but mistakes do happen. We stand ready to make good, per above.

SPECIAL QUOTATIONS—We shall be glad to make special quotations, if large lots, or other grades or sorts are wanted.

If you are interested in other fruits, let us know. We may be able to save you money on them. The same is true of sorts not named in this list.

Linneaus Rhubarb

Ornamental Department

Not so long ago Ornamentals were considered an unnecessary luxury. Now they are considered to be a vital necessity. Suburban and interurban residences are making every effort to make their home grounds as near "woody" as possible. Since our native forests have nearly disappeared, farmers too, are feeling the need of "Back to Nature." Many of our farm homes are now as well planted and cared for as the best suburban homes.

Landscape work about almost any place is a great addition to its appearance and selling value. Make your farm homes at least as attractive and modern as city homes. Your boys and girls won't want to leave the farm. Don't wait too long. "An ounce of preventative is worth several pounds of cure, in this case. Any one can do something to help. We can help you plan, outside of packing season. We cannot stop to do this in the midst of packing. Our charge is reasonable for this. If you have a job demanding more expert service than we have, we will be frank to advise you to get better advice.

Large Ornamentals are very hard to pack for shipment, except in car lots. Get them from here with hay rack or truck. We can secure truck for you, if you wish it.

We have small lots in many sorts not listed and are in close connection with other growers of many other sorts. **LET US QUOTE ON YOUR WANTS.**

ORNAMENTAL TREES

We can supply any tree grown by the trade, and many not listed through collectors, if we have your order in time. In fact, given time, we can do almost any plant that grows.

Lombardy Poplar

Deciduous Shrubs

In the past shrubs played a very small part in plantings, excepting a few common sorts such as Snowballs, Flowering Almond, etc. We are waking up to the fact that for foundation work, corners, division lines and screens, they play a very important part. Sales of shrubs increase by leaps and bounds as people become acquainted with their possibility. There is a shrub for every location.

The right shrub in the right place brings a great pleasure.

Our Descriptive Catalogue describes most of the sorts listed.

Spraying Material

We are advised by wholesale houses in these that we now handle more spraying material than all other dealers in this county.

Last season we handled a ton of dry spraying material and one thousand gallons of the concentrated liquid solution. We handle nothing but the best. The work of putting it on is too expensive to risk poor material. On account of the immense quantity we handle and people coming here after it, we are able to offer you the following low prices.

SCALECIDE—The misable oil spray that not only prevents scale but lessens blight and improves the general health of the tree. Each year we use it, we have more confidence in it. Considering the great advantages of this dormant spray, we consider it the cheapest, best and most effective of all dormant sprays. **Do not use it for summer spraying.**

ONE BARREL—50 gallons shipped from New Jersey, freight allowed off the bill \$38.00; f. o. b. Hopedale, \$40.00. One-half barrel, 30 gallons, freighted from New Jersey, \$19.60. Not in stock here. Two 5-gallon cases, crated for shipment, \$10.60. Ten gallons out of barrel here, your container, \$10.00. Five gallons out of barrel here, your container, \$5.25. Five gallons crated for shipment, \$6.00. One gallon, your container, \$1.25, our container \$1.40. One quart, your container, 40c; our container, 60c. Use 1 gallon to 15 gallons of water.

MISCABLE OILS—Our experimental stations are advising these for the destruction of scale. They are good for that and quite cheap. But they are not so good for the health of the tree as Scalecide. The price runs according to quality from 40c to 60c per gallon and freight from the makers, in barrel lots. We can get it for you if you want it, but we advise you to use Scalecide.

DRY LIME SULPHUR—Last year we used $\frac{3}{4}$ ton of this. It comes in steel drums and will keep indefinitely, if kept dry.

For Dormant Spray dissolve 12 to 14 lbs. to 50 gallons of water. For summer spray, use 3 to $3\frac{1}{2}$ lbs. to 50 gallons.

1 lb. can, 30c; 5 lb. cans, 25c per lb.; 10 lbs., 18 $\frac{1}{2}$ c per lb.; 25 lb. drums, 16c per lb.; 50 lb. drums, 15c per lb.; 100 lbs., 14c per lb.

LIME SULPHUR SOLUTION—For dormant spray use 1 gallon to 8 or 9 gallons of water, or 5 gallons to 45 gallons of water. For summer spray use $1\frac{1}{4}$ gallons for 50 gallons. Barrel, about 50 gallons, 20c per gallon f. o. b. St. Louis or East Chicago; f. o. b. Hopedale, 26c gallon. Barrels charged at \$2.00, returnable at same price. Half-barrel, about 25 gallons at 23c per gallon, f. o. b. St. Louis or East Chicago; 29c per gallon here. Barrels charged at \$1.50, returnable at same price. **Small Lots**—Here, purchasers furnishing container, 35c per gallon; 10 gals., \$3.00.

PARADICHOLOMBENZENE (Paracide)—Used to destroy Treehoppers. See Ex. Station bulletins for the use of this material. 1 lb., 35c; 10 lbs., \$3.00. Ask for prices on 25 lbs., up, f. o. b. St. Louis

ARSENATE OF LEAD POWDER—Mix with water to the consistency of cream. For fruit trees and general spraying use $1\frac{1}{2}$ lbs. to 50 gallons water. For potato bugs use 2 to $2\frac{1}{4}$ lbs. to 50 gallons of water. $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 2 lbs. for 75c; 10 lbs., 35c per lb.; 24 lbs., 33c per lb.; 100 lbs., 30c per lb. All excepting the $\frac{1}{2}$ lb. and 1 lb. are put up in tough paper bags this year, containing 2 lbs. each.

DRY BORDEAUX MIXTURE—For mold, potato and tomato blight, or other fungous diseases. Dissolve the same as Arsenate of Lead Powder. Use 4 lbs. to 5 lbs. for 50 gallons of water. 1 lb., 40c; 5 lbs., 35c per lb.

NICOTINE-SULPHIDE, Black Leaf 40—The best remedy for lice of all sorts. Very poisonous before diluted. Use 1 part to 800 parts of water. 1 pint to 100 gallons of water. 1 teaspoon to 1 gallon of water. We do not carry it in the regular tins, since it would cost about \$3.50 per pint put up in $\frac{1}{2}$ pound tins at \$1.25; 1 pint, \$2.00; $\frac{1}{2}$ pint, \$1.25.

KAYSO—The best Spray Spreader: Not needed when using Scalecide.

Spreads summer sprays over entire surface, making it more effective and avoiding spots on fruit. Use 8 to 12 oz. to 100 gallons of spray mixture. Dissolve the same as Arsenate of Lead Powder. $\frac{1}{2}$ lb., 25c; 1 lb., 40c; 10 lbs. for \$3.50.

SULPHO TOBACCO SOAP—Directions on each package. Booklet with each purchase. 3 oz. cake, 10c; 8 oz. cake, 20c; 1 lb., 35c.

WOOD VENEER TREE WRAPPERS

Wood Veneer Tree Wrappers, 10x20 inch size.

COTTONWOOD WRAPPERS—2c each, 20c per doz., \$1.50 per 100.

YELLOW POPLAR VENEERS—3c each, 30c per dozen, \$2.50 per 100.

HOPEDALE NURSERIES

Hopedale, Illinois
